25th Anniversary

Regina 2009 AGM

The activities provided were top class from the auto glass installation demonstration and architectural glass seminars to the evening entertainment.

Brendan Picard's auto glass installation demonstration and proper use of auto glass replacement tools, showed professionalism and gave those in attendance some excellent tips.

The crew from Crystal Temp provided useful tips on the installation of an all glass shower enclosure. Nathan Middlemiss went through the procedure from measurement to the actual installation.

Rick Hopkinson, of A-1 Power Door, went through the various products for automatic entrance and handicap accessible entrances along with codes and what to watch out for when installing and quoting these products.

The Annual General Meeting added new directors to the board of directors and a farewell to President Ken Kassian. The GDAS members thanked Ken for his many years of volunteer service to improve the glass industry in Saskatchewan.

The evening ended with an excellent banquet and great entertainment from Herb Dixon, who kept everyone in stitches with his comedy and jibes at audience members.
